

PHOTO RELEASE

At Healthy Kids we attempt to positively market our programs to the community as much as possible. We also like to document how our children participate and enjoy the many activities we offer!

Parents are asked to sign a photo release so that children's photographs can be used inside the program, in parent newsletters, for advertising and promotional purposes or for our website/social media as well as shared within the Brightwheel App.

If you are uncomfortable with any aspect of your child's photo being used for these purposes, please talk to the director so that the correct information is gathered and acknowledged in your child's file. If your family circumstances change and you wish to change your photo permission at any time please let the director know so updates can be made to your child's file.

Photo Release Permission

_____I agree to allow Healthy Kids to utilize my child's image on social media and print materials.
