Healthy Kids Programs Named to 2026 Inc. 5,000 List of America's Fastest-Growing Private Companies

For Fourth Consecutive Year, Certified Benefit Corporation Recognized for Exceptional Growth in Licensed Childcare Services

FISHKILL, N.Y. — August 11th, 2026 – *Inc.* today revealed that Healthy Kids Programs has been named to the 2026 Inc. 5,000 list, the most prestigious ranking of the nation's fastest-growing private companies. Marking its fourth consecutive year on the list, the recognition underscores Healthy Kids Programs' sustained growth, operational excellence, and expanding national footprint in partnership with school districts.

The annual Inc. 5,000 ranking provides a competitive showcase of the most successful independent businesses within the American economy. Companies on the 2026 list represent the top tier of rapid revenue growth and job creation nationwide.

"Our growth is a direct reflection of our mission," said Steve Dwek, Founder and CEO of Healthy Kids Programs. **"Every new location represents another school district supported, another parent who can work with peace of mind, and more children who have a safe, fun, and enriching place to belong."**

As a Certified Benefit Corporation, Healthy Kids Programs balances rapid expansion with social impact. The organization partners directly with school districts to deliver high-quality, licensed, and affordable before- and after-school programs, early learning centers, and summer camps.

Central to the company's expansion is its investment in workforce sustainability—highlighted by an industry-leading **100% Employer-Paid Childcare benefit** for program staff members. This initiative has allowed Healthy Kids Programs to recruit and retain high-caliber educators while maintaining stringent safety and quality standards across all sites.

Complete results of the Inc. 5,000, including company profiles and interactive database tools, can be found at www.inc.com/inc5000. High-resolution leadership headshots and brand assets are available upon request.
